B.A. Honours Program: Major in Environmental Governance (2021 and after)

Name:	Student #		
environment. Government world, the ability of gove	ce refers to the processes through which societies make decisions that affect the nts have long been dominant players in this context. However, in Canada and around the rnments alone to address environmental problems is being called into question. As a rironmental governance increasingly involves citizens, non-government organizations, and		
The Major in Environmental Governance introduces students to the challenges of environmental governance. Students completing the major will have the skills and experiences needed to participate effectively in environmental governance in a variety of settings. They will find careers in the public sector, in environmental non-government organizations, and, increasingly, in the private sector.			
Completion of required courses, and careful selection from among optional courses, will facilitate students completing a minor in Geography, Political Science, Economics, or other programs.			
= :	the 2021-22 calendar] through the degree requirements. In addition, you may use the "audit" feature in derstand the courses you still need to complete.
