Land Acknowledgement:

The University of Guelph (and our classroom) are located on the traditional lands of the Attawandaron people, and the treaty lands of the Mississaugas of the Credit. I also acknowledge the presence of other First Nations, Métis, and Inuit neighbours on this land. As a scholar in and of this place, I believe it is important for us to learn about and respect the relationship of Indigenous peoples to this land.

See the undergraduate calendar for information on [regulations and procedures](#) for Academic Consideration.

Drop Date:

Courses that are one semester long must be dropped by the end of the last day of classes; two-semester courses must be dropped by the last day of classes in the second semester. The regulations and procedures for [Dropping Courses](#) are available in the Undergraduate Calendar.

E-mail Communication:

As per university regulations, all students are required to check their <uoguelph.ca> e-mail account regularly: e-mail is the official route of communication between the University and its students. Expect that I will respond to your e-mails within two working days; if I do not, please resend your e-mail. If your question or concern is complicated, I may ask that we meet during office hours or at another scheduled time to address the issue in person. To ensure that your e-mail reaches my inbox, be sure to use a University of Guelph e-mail address. Include the course code and the nature of your question/comment in the subject line of the e-mail.

Copies of out-of-class assignments:

Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

Accessibility:

The University promotes the full participation of students who experience disabilities in their academic programs. To that end, the provision of academic accommodation is a shared responsibility between the University and the student. When accommodations are needed, the student is required to first register with Student Accessibility Services (SAS). Documentation to substantiate the existence of a disability is required; however, interim accommodations may be possible while that process is underway. Accommodations are available for both permanent and temporary disabilities. It should be noted that common illnesses such as a cold or the flu do not constitute a disability. Use of the SAS Exam Centre requires students to book their exams at least 7 days in advance, and not later than the 40th Class Day. More information: www.uoguelph.ca/sas

Academic Misconduct:

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection. **Please note:** Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor. The [Academic Misconduct Policy](#) is detailed in the Undergraduate Calendar.

Plagiarism includes improper acknowledgement or citation of the work of others, the inclusion of false or misleading references, and the resubmission of work that has already been evaluated at the University. Prevent inadvertent academic dishonesty by carefully referencing and citing the sources you use in your work. For advice on proper referencing, please see this [link](#).

Turnitin:

In this course, we will be using Turnitin integrated with the CourseLink Dropbox tool to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph. All submitted assignments will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site. A major benefit of using Turnitin is that students will be able to educate and empower themselves in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment. Please contact me if you have questions or concerns about this software.

Presentations that are made in relation to course work—including lectures—cannot be recorded, copied, or shared without the permission of the presenter, whether the instructor, a classmate, or a guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.
