GEOG*2210: Environment and Resources

Winter 2021

Section: DE01

Department of Geography, Environment, and Geomatics

Credit Weight: 0.50

Course Details

Calendar Description

This course examines the interrelationships between people and biophysical processes. The main themes are: 1) characteristics of natural resources and processes through which they are developed and used and 2) human response to environmental conditions, including natural hazards and global change. Contemporary Canadian case studies will be presented at the regional and national scales.

Learning Outcomes

Course Learning Outcomes

This course considers some of the contemporary dynamics of environment-society relations in the Global North through examination of practices and patterns of resource exploitation and use. Unit 01 of the course lays the groundwork for critically conceptualizing this relationship and for identifying some of the underlying causes of contemporary environmental degradation within advanced neoliberal, capitalist societies (like Canada). Here we take a critical perspective on environment society-relations which deliberately foregrounds the role of power and political economy in shaping resource use and governance. In Unit 02 of the course, we put these concepts to use by engaging a selection of case studies. Building on what we have learned in Units 01 and 02, Unit 03 of the course turns to consideration of the dynamics of Canadian resource governance. Here students will be introduced to some of the ways in which settler colonialism and Indigenous jurisdiction shape the political economy of resource extraction in Canada.
By the end of this course, you should be able to:

1. Critically evaluate the merits of frameworks for understanding environment-society relations and resource use
2. Identify and understand the relationships that shape environmental-society relations and resource use in advanced, neoliberal, capitalist economies; especially the role played by political economy
3. Identify and understand the main ways in which settler-colonialism shapes environment-society relations and the dynamics of resource use in settler colonies (like Canada)
4. Critically analyse and assess information about environmental problems

Teaching and Learning Activities

Method of Learning

This course is designed to introduce students to foundational concepts and materials related to environment and resources within carefully scaffolded structure that develops students’ critical thinking and analytical skills. Each week, students are provided with a framework for critically engaging with core readings and media. See below for more details the course is structured and how it guides learners from an initial acquisition of knowledge to interpretation and analysis.

Course assessments are designed to provide students with authentic means to demonstrate their learning and the critical and analytical skills they have developed.

Course Structure

This course is structured into three (3) units, which are based on large thematic groupings of ideas. Within each unit, content is structured into weeks, which have a more specific focus within a given unit.

Unit 01: Framing Environment-Society Relations

- Week 1: Population and Scarcity
- Week 2: Tragedy of the Commons
- Weeks 3 and 4: Markets and Price Signals

Unit 02: Political Economy, Power, and Resource Use

- Week 5: Introduction to Power and Political Economy – Climate Change and Systems Change
- Week 6: Political Economy and Resource Use
- Week 7: Environmental Justice
Unit 03: Settler Colonialism & Canadian Environmental Governance

- Week 8: Introducing Settler Colonialism
- Week 9: Settler Colonialism, Dispossession, and Indigenous Jurisdiction
- Week 10: Resource Governance and the Problematic of Settler Colonialism
- Weeks 11 and 12: Resource Governance and ‘Managing’ Indigenous Jurisdiction

What to Expect for Each Unit and Week

Each unit is bookended with an introduction and conclusion. Unit introductions begin with the unit overview and learning outcomes, and contains important framing questions. Unit conclusions summarize key learnings from within the unit.

Within each unit, content is broken down into smaller, focused topics that span 1 (or, occasionally, 2) weeks. Content for each week is presented on 1 page that is organized by tabs. You will start the week with a broad overview and then gradually go more in-depth on the topic. Stopping points at which you are asked to complete required readings and media are integrated within the content to facilitate meaningful and scaffolded engagement with the required materials.

Schedule

It is strongly recommended that you follow the course schedule provided below. The schedule outlines what you should be working on each week of the course and lists the important due dates for the assessments. By following the schedule, you will be better prepared to complete the assessments and succeed in this course.

Assessment Descriptions

Book Review
The Book Review assignment requires you to read and critically engage with two texts: (1) *This Changes Everything* by Naomi Klein, and (2) *Unsettling Canada* by Arthur Manuel. These are both important texts that will complement course themes and deepen your comprehension of the dynamics of resource governance and use.

For each book review, you will read and review the required text. In order to help you write an effective book review, you will participate in a book club with fellow students. Use the book club as a place to share ideas about what you have read. Then, use what
you’ve gained from your participation in the book club to help you write a critical, comprehensive review of the text.

**Discussion Participation Reflection Paper**

An important aspect of the learning experience in this course is the online discussions. Each week has an associated discussion activity. You are encouraged to participate in all discussion activities, but must select a minimum of 3 discussions in which to participate. This experience provides you with the opportunity to share the knowledge you gained in the course and to engage in a dialogue with fellow learners. It is strongly recommended that you integrate your regular unit “brainstorm” questions, your book club experiences, and any other course materials within your discussions. For this assignment, you will write a reflection paper that demonstrate your learning through engagement in discussions over the course of the semester.

**Take Home Final Exam**

The final exam is a take home exam, meaning you will be presented with a number of questions and you will have to respond in writing to those question within a set number of days. You will upload your work to a Dropbox folder in the course. The exam will be cumulative and will test your comprehension and familiarity with the content of course materials.

University of Guelph degree and associate diploma students must check WebAdvisor for their examination schedule. Open Learning program students must check the Open Learning Program Final Examination Schedule for their examination schedule.

Technical Skills

As part of your online experience, you are expected to use a variety of technology as part of your learning:

- Manage files and folders on your computer (e.g., save, name, copy, backup, rename, delete, and check properties);
- Install software, security, and virus protection;
- Use office applications (e.g., Word, PowerPoint, Excel, or similar) to create documents;
- Be comfortable uploading and downloading saved files;
- Communicate using email (e.g., create, receive, reply, print, send, download, and open attachments);
- Navigate the CourseLink learning environment and use the essential tools, such as Dropbox, Quizzes, Discussions, and Grades (the instructions for this are given in your course);
- Access, navigate, and search the Internet using a web browser (e.g., Firefox, Chrome); and
- Perform online research using various search engines (e.g., Google) and library databases.

Technical Support

If you need any assistance with the software tools or the CourseLink website, contact CourseLink Support.

The University of Guelph has an Acceptable Use Policy, which you are expected to adhere to.

https://www.uoguelph.ca/ccs/infosec/aup

Communicating with Your Instructor

During the course, your instructor will interact with you on various course matters on the course website using the following ways of communication:

- **Announcements:** The instructor will use Announcements on the Course Home page to provide you with course reminders and updates. Please check this section frequently for course updates from your instructor.

- **Ask Your Instructor Discussion:** Use this discussion forum to ask questions of your instructor about content or course-related issues with which you are unfamiliar. If you encounter difficulties, the instructor is here to help you. Please post general course-related questions to the discussion forum so that all students have an opportunity to review the response. To access this discussion forum, select Discussions from the Tools dropdown menu.

- **Email:** If you have a conflict that prevents you from completing course requirements, or have a question concerning a personal matter, you can send your instructor a private message by email. The instructor will respond to your email within 48 to 72 hours.

- **Skype/Zoom:** If you have a complex question you would like to discuss with your instructor, you may book a Skype or Zoom meeting. Meetings depend on the availability of you and the instructor, and are booked on a first come first served basis.

Netiquette Expectations

For distance education courses, the course website is considered the classroom and the same protections, expectations, guidelines, and regulations used in face-to-face settings apply, plus other policies and considerations that come into play specifically because these courses are online.

Inappropriate online behaviour will not be tolerated. Examples of inappropriate online behaviour include:

- Posting inflammatory messages about your instructor or fellow students;
- Using obscene or offensive language online;
- Copying or presenting someone else's work as your own;
• Adapting information from the Internet without using proper citations or references;
• Buying or selling term papers or assignments;
• Posting or selling course materials to course notes websites;
• Having someone else complete your quiz or completing a quiz for/with another student;
• Stating false claims about lost quiz answers or other assignment submissions;
• Threatening or harassing a student or instructor online;
• Discriminating against fellow students, instructors, and/or TAs;
• Using the course website to promote profit-driven products or services;
• Attempting to compromise the security or functionality of the learning management system;
• Sharing your username and password; and
• Recording lectures without the permission of the instructor.

Submission of Assignments to Dropbox

Your Book Reviews, Discussion Participation Reflection Paper, and Take-Home Exam for this course should be submitted electronically via the online Dropbox tool. When submitting your assignments using the Dropbox tool, do not leave the page until your assignment has successfully uploaded. To verify that your submission was complete, you can view the submission history immediately after the upload to see which files uploaded successfully. The system will also email you a receipt. Save this email receipt as proof of submission.

Be sure to keep a back-up copy of all of your assignments in the event that they are lost in transition. In order to avoid any last-minute computer problems, your instructor strongly recommend you save your assignments to a cloud-based file storage (e.g., Google Docs), or send to your email account, so that should something happen to your computer, the assignment could still be submitted on time or re-submitted.

It is your responsibility to submit your assignments on time as specified on the Schedule. Be sure to check the technical requirements and make sure you have the proper computer, that you have a supported browser, and that you have reliable Internet access. Remember that technical difficulty is not an excuse not to turn in your assignment on time. Don’t wait until the last minute as you may get behind in your work.

If, for some reason, you have a technical difficulty when submitting your assignment electronically, please contact your instructor or CourseLink Support.
https://support.opened.uoguelph.ca/contact
Late Policy

If you choose to submit your individual assignments to the Dropbox tool late, the full allocated mark will be reduced by 5% per day after the deadline for the submission of the assignment to a limit of six days at which time access to the Dropbox folder will be closed.

For late final exam submissions to the Quizzes tool, your attempt will be flagged as late, and you will be prevented from making further changes to your attempt once your time ends. Make sure you save all your responses to the exam questions. For details on how long you have to complete the quiz or exam, please see the instructions in Assessments on CourseLink. The Quizzes tool counts down your time in the upper-left hand corner. Please pay close attention to this countdown and save your answers frequently.

Extensions will be considered for medical reasons or other extenuating circumstances. If you require an extension, discuss this with the instructor as soon as possible and well before the due date. Barring exceptional circumstances, extensions will not be granted once the due date has passed. These rules are not designed to be arbitrary, nor are they inflexible. They are designed to keep you organized, to ensure that all students have the same amount of time to work on assignments, and to help to return marked materials to you in the shortest possible time.

Obtaining Grades and Feedback

Unofficial assessment marks will be available in the Grades tool of the course website. Your instructor will have grades posted online within 2 weeks of the submission deadline, if the assignment was submitted on time. Once your assignments are marked you can view your grades on the course website by selecting Grades from the Tools dropdown menu on the navbar. Your course will remain open to you for seven days following the last day of the final exam period.

University of Guelph degree students can access their final grade by logging into WebAdvisor (using your U of G central ID). Open Learning program students should log in to the OpenEd Student Portal to view their final grade (using the same username and password you have been using for your courses).

Rights and Responsibilities When Learning Online

For distance education (DE) courses, the course website is considered the classroom and the same protections, expectations, guidelines, and regulations used in face-to-face settings apply, plus other policies and considerations that come into play specifically because these courses are online.

For more information on your rights and responsibilities when learning in the online environment, visit Rights and Responsibilities.
Turnitin Originality Check

In this course, your instructor will be using Turnitin, integrated with the CourseLink Dropbox tool, to detect possible plagiarism, unauthorized collaboration or copying as part of the ongoing efforts to maintain academic integrity at the University of Guelph.

All individual assignments submitted to the Dropbox tool will be included as source documents in the Turnitin.com reference database solely for the purpose of detecting plagiarism of such papers. Use of the Turnitin.com service is subject to the Usage Policy posted on the Turnitin.com site.

A major benefit of using Turnitin is that you will be able to educate and empower yourself in preventing academic misconduct. In this course, you may screen your own assignments through Turnitin as many times as you wish before the due date. You will be able to see and print reports that show you exactly where you have properly and improperly referenced the outside sources and materials in your assignment.

University Standard Statements

University of Guelph: Undergraduate Policies

As a student of the University of Guelph, it is important for you to understand your rights and responsibilities and the academic rules and regulations that you must abide by.

If you are a registered University of Guelph Degree Student, consult the Undergraduate Calendar for the rules, regulations, curricula, programs and fees for current and previous academic years.

If you are an Open Learning Program Student, consult the Open Learning Program Calendar for information about University of Guelph administrative policies, procedures and services.

Copies of Assignments

Keep paper and/or other reliable back-up copies of all assignments: you may be asked to resubmit work at any time.

Accessibility

The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community’s shared commitment to an open and supportive learning environment.

University of Guelph Degree Students

Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact Accessibility Services as soon as possible.

For more information, contact Accessibility Services at 519-824-4120 ext. 56208, email Accessibility Services or visit the Accessibility Services website.
Open Learning Program Students

If you are an Open Learning program student who requires academic accommodation, please contact the Academic Assistant to the Executive Director. Please ensure that you contact us before the end of the first week of your course (every semester) in order to avoid any delays in support. Documentation from a health professional is required for all academic accommodations. Please note that all information provided will be held in confidence.

If you require textbooks produced in an alternate format (e.g., DAISY, Braille, large print or eText), please contact the Academic Assistant to the Executive Director at least two months prior to the course start date. If contact is not made within the suggested timeframe, support may be delayed. It is recommended that you refer to the course outline before beginning your course in order to determine the required readings.

The provision of academic accommodation is a shared responsibility between OpenEd and the student requesting accommodation. It is recognized that academic accommodations are intended to “level the playing field” for students with disabilities.

Academic Misconduct

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The Academic Misconduct Policy is detailed in the Undergraduate Calendar.

Plagiarism Detection Software

Students should be aware that faculty have the right to use software to aid in the detection of plagiarism or copying and to examine students orally on submitted work. For students found guilty of academic misconduct, serious penalties, up to and including suspension or expulsion from the University can be imposed.

Recording of Materials

Presentations which are made in relation to course work—including lectures—cannot be recorded or copied without the permission of the presenter, whether the instructor, a classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

Disclaimer

Please note that the ongoing COVID-19 pandemic may necessitate a revision of the format of course offerings and academic schedules. Any such changes will be announced via CourseLink and/or class email. All University-wide decisions will be posted on the COVID-19 website and circulated by email.
Illness

The University will not normally require verification of illness (doctor's notes) for Fall 2020 or Winter 2021 semester courses. However, requests for Academic Consideration may still require medical documentation as appropriate.
