GEOG 3050: Development and the City University of Guelph
Department of Geography
Winter 2022

Instructor: Dr. Bharat Punjabi Teaching Assistants: TBA
Instructor’s Office location: TBA
Time: Tuesdays and Thursdays, 1:00 pm - 2:20pm
Instructor’s Email: bpunjabi@uoguelph.ca

Undergraduate Calendar description: “This course examines different theoretical and policy perspectives of urbanization and urban development, as well as social, economic and environmental living conditions in cities of the Global ‘South’. It refers to concrete examples of cities in their national and international context, paying due attention to diversity and the fluidity of urban-rural boundaries. Specific urban development issues, including migration, housing, employment, health and environment are also addressed.”

Prerequisites: 7.50 credits, (GEOG*2030 and GEOG*2260 recommended)

Course Objectives
- To encourage and develop intellectual engagement with the processes and outcomes of urbanization in the Global South;
- To familiarize students with both urban forms and social processes that occur in cities in the Global South;
- To introduce students to a number of case studies of urban centres in the Global South;
- To develop research, reading, and writing skills, as well as critical thinking

Synopsis of Proposed Course Outline
This course has been designed as an introductory course for students in undergraduate programs in development studies and geography. Students who have some background in the social sciences (planning, geography, architecture, history, anthropology, economics and political science) are more likely to feel comfortable with the course material. But the instructor will try to give any extra support to students from other disciplines if they decide to register.

The purpose of this course is to analyze, in order to better understand the geography and political economy of the urban mega region in India and China. It will highlight the key intellectual contributions on this subject and will give students a strong conceptual and methodological
grounding in this topic. Major influences from the intellectual disciplines of planning, geography, political science, social anthropology and economics on urban Asia will be summarized first. Later, the influence of multilateral organizations like the World Bank and UN Habitat to policies will be presented and broader level policy shifts will be identified in the context of economic globalization. Theories that have been developed or applied in the urban Asian context, viz. the anthropologist, Clifford Geertz’s early work on urban informality in the 1960’s, W Arthur Lewis’s dual sector model from development economics and finally, Terry McGee’s formative contribution on the Asian desakota and recent post-colonial critiques will be first presented as paradigmatic contributions from the field of urban studies in Asia. These theories will form the bedrock of the course and students are expected to pay a lot of attention to this content presented in the first four weeks of the course. This initial material will then be placed in the public policy and governance context and issues involving jurisdiction, sovereignty and levels of initiative at the urban level will also be covered.

A second major objective of this course is to give students a rigorous grounding in the urban context of Asia where they can merge intellectual/critical/theoretical frameworks with the policy context of urbanization on the Asian continent. Thus, while reading from the main lists, we will cover disparate ideas from fields as wide ranging as urban geography, development economics, post-colonial studies, political ecology, the institutional literature in urban studies. The course will move from providing a synoptic overview of the main arguments in critical urban studies literature to covering major policy questions.

A third objective of this course will be to develop a deeper understanding of contemporary urbanization in India and China through the main textbooks and other readings in this course. This section will thus have a focus on urban spatial patterns, city-systems, the persistence of urban informality in India, the challenge of migration to cities in India and China and the achievements and failures of industrialization in both countries. Finally, this section will also focus on how institutional reform influences the capacities and abilities of urban local governments to environmental challenges in the urban parts of India and China through a focus on urban environmental issues. While the textbook will help us understand these issues, comparisons will be made between Chennai (the focus of the book by Krupa Ge) and other Indian and Asian cities. Here, we shall examine how some parts of urban Asia have been able to solve problems of collective action in the environmental context (e.g., pollution, water management) sphere and the problems and potential of co-operation between cities and towns in the Asian mega region.
Required Textbooks:

A number of readings are provided through web links in this syllabus. Other readings are provided through the ARES course reserves system. It is your responsibility to access these readings, if you experience any difficulties accessing these readings, please contact me via email.

Assignments and Due Dates

1. Critical analysis of the readings based on any part of Krupa Ge’s book: Each paper will be 1000-1200 words max. and is worth 15 marks each. Each of these papers will be due at the beginning of class on **February 15th and March 8th** should reflect the theoretical content taught in the first few weeks of the course. Both papers combined will be worth 30% of the total marks for the course. A copy of both papers should also be submitted on Courselink. Guidelines for the critical analysis paper will be given in the second week in class.

2. Final Book Review of the textbook for the course. This is due in the beginning of **the 5th of April** class and a copy has to be submitted on Courselink. Worth 30% of the total marks for the course. Details will be provided in week four. This assignment will have a word count of 2,000 words.

3. Final Online Exam, **April 16th 2022**. 40% of the total marks for the course. The final exam will be based on the entire content of the course. An exam guide will be shared in class on March 29th. The final exam will be posted ahead of April 16. It will be posted for three days and you will have two hours to complete the exam once you start it.

**POLICY ON USE OF ELECTRONIC DEVICES AND CLASSROOM ETIQUETTE**

Reminder that cell phones and other communications devices should either be turned off or in silent mode. Do not answer your phone or text message during class. If you use a laptop for taking notes, please do so in a way that does not disturb other students or distract the instructor. Taking photos, audio and video recordings are not permitted. Audio recording requires permission of the instructor. This holds especially for the lectures. Non-compliance with these rules on recording will be subject to disciplinary actions under the Code of Student Conduct.
Weekly Reading List

January 11th 2022
Introduction: Political Economy and other approaches to urbanization. (Lecture Slides)

Compulsory Readings
Chapter 1 from Sean Fox and Tom Goodfellow “Cities and Development”

Suggested Readings
UNDP (2017) Rapid urbanization: opportunities and challenges to improve the well-being of societies.

13th January 2022

Compulsory Readings:
Chapter 2 from Sean Fox and Tom Goodfellow “Cities and Development”

18th January 2022
Theme: Models, Frameworks and Metaphors in Asian Urbanization: The Contributions of Geertz, Friedmann, Lewis, McGee and their role in our knowledge and understanding of the Asian urban context.

Compulsory Readings
20th January 2022 (contd.)

Theme: Models, Frameworks and Metaphors in Asian Urbanization: The Contributions of Geertz, Friedmann, Lewis, McGee and their role in our knowledge and understanding of the Asian urban context (contd.)

Compulsory Readings
Chapter 3 from Sean Fox and Tom Goodfellow

Suggested readings/videos
The Lewis model explained: https://www.youtube.com/watch?v=1cgvYrGBW6w
Financial Times: China Migration at a turning point. http://www.ft.com/cms/s/2/767495a0-e99b-11e4-b863-00144feab7de.html#axzz4JmWVQoJO
The Economist: The largest migration in history. https://www.youtube.com/watch?v=K NXg-kYk-LU

25th January, 2022

Theme: Contemporary Indian Urbanization: Major Patterns, Conundrums and Policy Challenges.

Compulsory Readings:
Om Mathur 2021. Chapter 2 in the State of Cities Report (provided in the U of Guelph course reserves)
Om Mathur 2017 How urban is India. Financial Express, November 1st

Standard Statements

E-mail Communication
As per university regulations, all students are required to check their <mail.uoguelph.ca> e-mail account regularly: e-mail is the official route of communication between the University and its students.

When You Cannot Meet a Course Requirement
When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons, please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. See the undergraduate calendar for information on regulations and procedures for Academic Consideration.

Drop Date
The last date to drop one-semester courses, without academic penalty, is on the undergraduate calendar. For regulations and procedures for Dropping Courses, see the Undergraduate Calendar.

Copies of out-of-class assignments
Keep paper and/or other reliable back-up copies of all out-of-class assignments: you may be asked to resubmit work at any time.

Accessibility
The University of Guelph is committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment.
Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact the Centre for Students with Disabilities as soon as possible. For more information, contact CSD at 519-824-4120 ext. 56208 or email csd@uoguelph.ca or see the website: http://www.uoguelph.ca/csd/

**Academic Misconduct**

The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University’s policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.
